We hope everyone had a nice, safe holiday season this year. The library is wrapping up another challenging, but busy year. By the end of the month patrons should have the capability of borrowing e-books from our library. This will be a big change to the library and its staff. In the meantime, if there is a particular title of book, movie, or music CD that you would like and we do not own it, please don't hesitate to ask staff to interlibrary loan the material for you. 9 new DVD titles were added to our collection this month: The Amazing Spider-Man **Bourne Legacy** The Dark Knight Rises Hope Springs Men In Black 3

When Berta Harris of E.J. Pugh's weight-loss group succumbs to an untimely death, the twelve-step groups in attendance at her memorial service have plenty of explanations for the cause. But amateur sleuth E.J. has her own questions: why was Kerry Killian, an old friend and the realtor selling Berta Harris's house, murdered the day after E.J. questioned her? How is this linked to the mysterious death of Berta? And why would anyone in the group want to put on weight? As she immerses herself in these big questions, E.J.'s marriage grows increasingly strained. Can she solve the mystery surrounding the deaths of Berta and Kerry and save her own marriage?

Faithful Unto Death – Stephanie Jaye Evans

Everything looks perfect in Sugar Land, Texas, but it's not. No one knows that better than Walker "Bear" Wells, a former college football player now serving as a minister in this upscale Texas town, where famous athletes mix with ranchers and the local parish priest wants to arm wrestle. Bear deals daily with emotional and spiritual problems, in both his flock and his own family. But never murder. Not until a man is found dead on the nearby golf course, his skull crushed. Bear has no interest in playing detective. But every time he turns around, another facet of the investigation tangles with his own life.... Like the fact that the murdered man's son — and a main suspect — is currently dating his own rebellious teenage daughter.

The Air We Breathe – Christa Parrish

Seventeen-year-old Molly Fisk does not go outside. For so long she has run away from a moment long in the past, but she's not running anymore. She's hiding. Ruled by anxiety, she can only stare out the window of the tiny tourist-town museum she and her mother call home, longing to go outside. Then the chance arrival of a woman Molly knew years ago changes everything. Back then, Claire Rodriguez was an empty shell. Only in the unique friendship she struck up with a little girl — a silent girl who would only talk to Claire — did she see the possibility of healing. But one day the girl and her mother vanished, their house left abandoned. How can Claire now offer Molly the same chance at finding life anew?

The next big and murderous human pandemic, the one that kills us in millions, will be caused by a new disease—new to human, anyway. The bug that's responsible will be strange, unfamiliar, but it won't come from outer space. Odds are that the killer pathogen—most likely a virus—will spill over into humans from a nonhuman animal. From what innocent creature, in what remote landscape, will the Next Big One emerge?

In this age of speedy travel between dense human populations, an emerging disease can go global in hours. But where will it start? Recent outbreaks offer some guidance, and so Quammen traces the origins of Ebola, Marburg, SARS, avian influenza, Lyme disease, and other bizarre cases of spillover including the grim, unexpected story of how AIDS began from a single Cameroonian chimpanzee.

Capturing Camelot: Stanley Tretick's iconic images of the Kennedys – Kitty Kelley

Stanley Tretick, a consummate photojournalist, was sent by United Press International to follow the Kennedy campaign of 1960. The photographer soon befriended the candidate and took many of JFK's best pictures during this time. When Kennedy took office, Tretick was given extensive access to the White House, and the picture magazine Look hired him to cover the President and his family. Tretick is best known today for the photographs he took of President Kennedy relaxing with his children. His photographs helped define the American family of the early sixties and lent Kennedy an endearing image that greatly contributed to his popularity.

Warp Speed by Lisa Yee

Marley Sandelski has always tried to stay invisible, especially around the bullies at school. Then Marley's gym teacher discovers his running speed. After he wins a few races, it is harder and harder to melt into the lockers out of sight of bullies, like Digger Ronster. Yee does a good job of humanizing this young bully, as Marley learns Diggers brutal secret and ends up helping him. Yee is also author to 'Millicent Min, Girl Genius' and 'Stadford Wong Flunks Big-Time' stand alone titles about other students at the Ranch Rosetta Middle School.

Here Come The Girl Scouts! By Shana Corey

The subtitle of this glorious picture book is 'The amazing All-true Story of Juliette "Daisy" Gordon Low and Her Great Adventure.' If you recognize the name you will know that this is the story of the founder of the Girl Scouts. Though she grew up in Savannah, Georgia, in the Victorian era, she was far from prim, dainty and proper. She preferred fishing, hiking and adventure. This is a great source for teaching Low's story. It's concise, well written and has fun, but realistic illustrations of how the world looked in her day.
